GUEST & CAMPUS ACCESS

CoreGate Hotspot Gateway

Run guest and student internet access from one box. Captive portal, SMS and ID verification, per-user rate limits and compliance logging come built in.

Login methods	Logging	Control	Management
SMS · ID · PMS	signed · time-stamped	user · room · plan	central console

01 How it works · Guests connect, records are kept

When a user joins the network the captive portal opens. They verify by SMS, ID or room details, the configured speed and quota apply, and session records are signed and stored.

GUEST
SSID: Guest
Phone, tablet, laptop

→

COREGATE HOTSPOT
SMS verified · 25 Mbps
Login, speed and quota

→

COMPLIANCE LOG
signed · time-stamped
Compliance record retention

02 Features

Captive portal
Multilingual login page branded for your property.

SMS and ID verification
Log in with a phone number or ID details.

PMS integration
Guest login with room number and surname, valid for the stay.

Quotas and rate limits
Speed and quota per user, room or plan.

Signed compliance logging
Time-stamped, signed record retention and export.

Paid plans
Free basic access and paid high-speed plans.

Multi-site
Every site of a hotel chain or campus in one console.

Cluster, failover and OTA
Up to 16-node clusters, automatic failover and zero-downtime updates, all from the central management system.

03 Licensing

Hotspot Gateway has its own licence structure and is quoted individually for your network.

04 Deployment scenarios

HOTEL

Hotels and resorts

Per-room access, automatic guest login via PMS and compliance records.

CAMPUS

Dorms and campus

Student login, fair-use quotas and peak-hour management.

PUBLIC

Cafés, malls, hospitals

Guest Wi-Fi that meets public-access logging obligations.

05 Capacity grows, service keeps running

Cluster architecture
Scale horizontally and vertically. Add up to 16 nodes to grow capacity as you need it.

Automatic failover
If a node goes down, sessions and traffic move to the other nodes automatically.

OTA updates
Updates roll out node by node, with no maintenance window and no subscriber impact.

Security and vulnerability detection
The platform is scanned continuously, and detected vulnerabilities and threats are remediated automatically.

24/7 monitoring and support
Our NOC watches your platform around the clock, steps in before issues grow, and support is always open.

Centralised management
Every node, site and licence from one console, with configuration, monitoring and reporting together.

06 Frequently asked questions

What is logged for compliance?
User identity, device MAC address, IP address and session times, signed with a timestamp.

Which PMS systems does it support?
It integrates with common hotel PMS systems; we confirm yours during discovery.

Will it work with my access points?
Yes. It sits at the network edge, independent of your access point brand.

Can guests be separated from staff?
Yes. Each network gets its own policy, speed and logging rules.

Get a quote for Hotspot Gateway

Your subscriber count and peak traffic are all we need to send a licence and hardware recommendation.
